MEMORANDUM FOR: Director, Office of Legislative Liaison

ATTENTION: [   ]   STAT

VIA: Deputy Director for Administration

FROM: [   ]   STAT
                  Acting Chief, Regulations Control Division

SUBJECT: Release of Regulatory Issuances to Congressional
                  Oversight Committees

    1. Regulations Control Division advised all components with whom
regulatory issuances are coordinated of the request of the Congressional
oversight committees for a copy of the existing Agency headquarters and
field regulations and all future revisions and additions. Objections or
comments regarding release of the issuances were solicited from each
component.

    2. Most components were not overly upset with the release of the
regulations for which they have primary responsibility, but expressed
concern with the release of the entire set of regulations which govern
the organization and functioning of the Agency. The Office of
Communications and the Office of Finance expressed strong objections to
release of regulations which reveal how and where we conduct activities.

    3. The contents of field regulations are basically the same as the
headquarters regulations with some detailed information not required by
field installations extracted. Also, there are only [   ] field   STAT
regulations, as opposed to [ ] headquarters regulations since not all   STAT
regulations are required in the field. However, as a means of protecting
[   ] the field version contains cryptonyms   STAT
and indicators which the Directorate of Operations, Science and
Technology, Office of Personnel, and Office of Communications believe
should be removed if release is to be made.
